IMPERIAL VALLEY COLLEGE
SERVICE AREA PROGRAM REVIEW

I. PROGRAM/DEPARTMENT DISCRPTION (include Vision; Mission; Services-
Functions; Funding Sources Statement)

Student Success & Support Program (SSSP) (formerly Matriculation) is a process that enhances student access to the California Community Colleges and promotes and sustains the efforts of credit students to be successful in their educational endeavors. The goals of Student Success & Support Program are to ensure that all students complete their college courses, persist to the next academic term, and achieve their educational objectives through the assistance of the student direct- components of the student Success & Support Program process: admissions, orientation, assessment and follow-up.

Student Success & Support Program is state funded categorical program.

II. SERVICE AREA OUTCOMES (use the attached form to identify outcomes, methods,
assessment process, results, decisions & recommendations)

See attachment.

III. DATA (use data pertinent to your program/department; include qualitative and
quantitative data; survey-evaluation results; and other relevant data to assess
program/department effectiveness)

The Matriculation Program has been changed to Student Success & Support Program by the California legislature. The change became effective Fall 2013. The purpose of the change was to increase California community college student access and success through the provision of core matriculation services, including orientation, assessment and placement, counseling, advising and other education planning services, with the goal of providing students with the support services necessary to assist them in achieving their education goal and identified course of study.

The core services for new students who want to receive priority registration are:

- 1) Orientation
- 2) Assessment
- 3) Student Education Plan

The processes to achieve the required services to students will be changed in order to provide a more user friendly and efficient method to serve the quantity of students that will be affected. New software systems are being purchased and training is underway.

IV. ANALYSIS (evaluate the strengths, challenges, opportunities and needs of your
program/department; provide thorough interpretation of data; use the attached form to
list previous objectives/goals and associated Institutional Goals; state if met, partially

met, or not met for each one; give detail on any improvements/effectiveness and detail on status on those not fully met.)

The Student Success & Support Program is facing many challenges in its implementation of the core services to students. The on-line orientation will be completely overhauled and delivered through new software. A lot of work will need to happen before it is fully functional. The development of Student Educational plans for every student will be a challenge since we do not have enough counselors to meet the demand. New processes will need to be explored.

A big challenge will be to train faculty and staff in the use of the new software.

However, the opportunities to create new ways of providing services to students is exciting.

- V. **FINDINGS & FUTURE DIRECTION** (summarize findings and indicate how the findings have shaped decision making; address areas of concern; provide recommendations for future goals of your program/department; use the attached form to identify goals for the next year; align future program goals to one or more institutional goals, and address applicable needs by listing budget enhancement requests associated with program goals, and select applicable resource plan, i.e. facilities, staffing, technology, professional development, marketing.)

The Student Success & Support Program received more monies this year, this allowed the program to purchase new software in order to implement the mandated core services in a more efficient manner for all new incoming students. In the future I foresee more funding which will allow us to hire counselors in order to reduce the student counselor ratio and serve more students.

- VI. **PROCESS IMPROVEMENT OPPORTUNITIES** (Use the attached "Process Improvement Opportunities" form to identify three processes for improvement in terms of: 1) Work efficiency, 2) Cost reductions, and 3) Contributions to student enrollment and/or success. Identify one or more institutional goals supported by each process. Assess progress in attainment of process improvements identified in previous Program Review.)

See attached table.

Identify Program Goal from Last Program Review: Students who are referred to counselors through the Early Alert Program will understand the importance of following through with their instructors recommendations.

Fall 2012, 90 students were referred through the Early Alert Program. All students were notified. Of those notified, 40 students met with a counselor, 53 did not respond. Final grades are listed below:

Withdrawals -	42	45%
F's	26	28%
D's	10	11%
A, B, or C	15	16%
Total	93	

In Spring 2013 term 36 students were referred to the Early Alert Program. All students were notified. Twelve students responded and met with a counselor, 24 did not respond. Final grades are listed below:

Withdrawals	20	56%
F	9	25%
D	4	11%
C	3	8%
Total	36

Provide detail on any improvements/effectiveness and detail status on those not fully met: Not having an assigned person working on student follow-up makes it very difficult track student progress. With the new system (Starfish) we will be implementing in the near future it should facilitate our assisting students and helping them succeed.

3	PAST PROGRAM GOAL #3	INSTITUTIONAL GOAL(S)

	<p><input type="checkbox"/> Not Met</p>	
	<p>Provide detail on any improvements/effectiveness and detail status on those not fully met: Flyers with the 1st STEP information were distributed to all high school seniors during our visit to the high schools in Spring 2013. Flyers were also placed on the counters of the Assessment Center, Counseling Center and the Admissions & Records office. The flyer was on the Counseling web page and the Assessment Center web page so students could access it from anywhere.</p>	
	<p>Students eligible for ASPIRE were identified and given an application to complete and submit by the identified deadline. One hundred thirty-nine students were identified as eligible and the list given to the Transfer Center counselor for follow-up.</p>	
	<p>In addition all high school counselors were inserviced about these programs during an orientation in November that was conducted at Imperial Valley College.</p>
