Calif. Comm. Colleges	Five Year Construction Plan	5/6/2015
	Inventory of Land	
	Imperial Valley CCD	Page 3

List the address and acreage of every land unit owned by the district (Education Code 81821(e)). Please identify all locations, both on-campus and off-campus, grouped according to their "parent" institution. In the event the list is long or complicated, please substitute copies of college bulletins or other notices to the public which display similar information. The list should be current as of October the prior year

Estimated Cost		\$667,000	\$516,000	\$13,865,000	\$45,000	

# Explain why this project is needed:

This project modernizes 3 small buildings that constitute the heart of the campus. Two of these building were part of the original campus (1962): Bldg 2 and Bldg 3. Including Bldg 800 (constructed in 1971) these buildings account for 11,976 of lecture space (25,319 WSCH of the campus total capacity of 69,746 WSCH), 5,470 asf of laboratory space, 4,150 asf of office space, and 839 asf of all other space.

In total the project modernizes 22,535 asf/32,286gsf of space by addressing code issues, infrastructure that has outlived its life, program and technology support issues to support the changing in teaching/learning methods that have occurred since the buildings were first constructed. Existing lecture spaces are reconfigured to better fit the class sizes to reduce overall lecture space to provide for the addition of needed laboratory space.

Estimated Cost		\$1,364,000	\$1,376,000	\$33,008,000	\$4,942,000	

# Explain why this project is needed:

This project provides a 60,959 GSF building consolidating learning resource and technology computer support. The college's main computer center along with a number of computer labs, classrooms and offices make up the remaining assignable square footage in this building. The project also provides for relocation and expansion of the library spaces in response to the technology of todays information resources and media systems.

The project also removes portables 2500 and 2600 by consolidating the tutoring activities of math, reading, writing and languages into the learning resource center.

# Explain why this project is needed:

Upon completion of the new Technology/LRC building, Building 15 is vacated. This project activates 20,300 ASF by modernizing the old library and converting it into a one stop student services center. Currently, enrollment and counseling services are scattered across the campus making it difficult for and confusing to students.

This project consolidates this services in a more visible and single location.

Estimated Cost		\$200,000	\$80,000	\$2,000,000	\$0	

## Explain why this project is needed:

This project modernizes the gymnasium. The physical education programs have undergone significant changes since the building was originally constructed in 1962. The need for locker space has diminished while the need for spaces for health and wellness and fitness have increased. This project addresses these issues as well as other issues related to the teaching/learning environment.

## Explain why this project is needed:

The current Science Building - Bldg 400 (space inventory #004) contains out of date laboratory facilities; the District is constructing a new science building with local funds to provide for replacement and growth. At the completion of the new building, Bldg 4 will be vacant (unassigned room type 050). This project activates that space by remodeling the building for instructional uses. The project also results in the permanent removal of 11,070 ASF (temporary modular building 20 and building 5 - 500A. building 50 - 500B).

The resulting project provides for 8 classrooms, 5 offices, 2 distance learning rooms, and clinical assessment spaces (room type 540) and a meeting room.
