

Q5 How would you improve the Program Review process?

Answered: 12 Skipped: 12

#	RESPONSES	DATE
1	We have little time for planning during the Fall. We are very busy with other deadlines that program review does not get the time and efforts it deserves.	11/20/2020 3:21 PM
2	Fall is a very busy time of the year, the deadline could be extended	11/20/2020 2:29 PM
3	The process is fine. I think the data could be more user-friendly. I end up doing a lot of the work myself because I'm only given some of the data, not all of it.	10/8/2020 11:09 AM
4	Get a more user friendly and intuitive planning software. Identify budget enhancements prior to the adoption of the budget in May.	10/5/2020 10:34 PM
5	It would be great to get specific feedback on our program reviews from administration after the process is done. This way we have a better idea of how to improve our programs, and what sort of information should be in the program review in future years.	9/30/2020 11:24 PM
6	The program review process has improved over the years, nothing comes to mind.	9/30/2020 4:56 PM
7	Get rid of SPOL	9/16/2020 4:20 PM
8	Some of us have many programs to analyze and little time, maybe extend the deadline.	9/9/2020 4:17 PM
9	have my supervisor meet with me more often to discuss objectives and SWOT	9/9/2020 1:58 PM
10	The process has been improving year by year.	9/9/2020 1:24 PM
11	More time to complete it would be helpful.	9/8/2020 10:19 AM
12	The tool used to conduct program review is not user friendly. I feel that a user-friendly tool would allow me to revisit my program review to assure that I am reaching the goals I have set. I also feel that in order for the review to work certain areas have to work together to achieve the same goal. If I have a goal, it may fit in another area and both areas should work together to either find the correct place for the goal or place the same goal in two areas. I don't think this is common practice.	9/4/2020 6:04 PM

Q7 As we evaluate SPOL and other software for program review and planning efforts, what key features or enhancements would you like any system to have?

Answered: 12 Skipped: 12

#	RESPONSES	DATE
1	Easy to use	11/20/2020 3:21 PM
2	SPOL is not perfect but we can manage	11/20/2020 2:29 PM
3	Ease of use and understanding. Easy navigation. Have fields set-up that puts everyone on same playing field regardless of writing skill.	10/5/2020 10:34 PM
4	A more visually appealing system, one in which reports are readily available.	10/2/2020 10:11 AM
5	None at this time.	9/30/2020 11:24 PM
6	SPOL serves its purpose, we lost the accreditation warning we had after we implemented it.	9/30/2020 4:56 PM
7	integration with Curriculum (CurriQunet)	9/16/2020 4:20 PM
8	Not a fan of spol, but this is the same across other CCC that they are all unhappy about their tools.	9/9/2020 4:17 PM
9	All tools will be the same, we need to value what program review brings to each program to make sure we take full advantage of this planning process.	9/9/2020 1:58 PM
10	Is not perfect, but it is getting the job done.	9/9/2020 1:24 PM
11	It needs to be accessible. In other words, it needs to work and not lock people out because they've been entered as being members of the wrong department.	9/8/2020 10:19 AM
12	User-friendliness is key. The tool should be easy to use and allow for ease of use throughout the academic year. The tool should truly be a planning tool that is used by the area throughout the year. It should be a tool that allows for live updates. In my opinion, SPOL is not an appropriate tool.	9/4/2020 6:04 PM
